ANTIREQUISITE(S): Credit for both Zoology 463 and any of Biology 305, Medical Science 403, 604, Zoology 269, Kinesiology 259, 260 or 323 will not be allowed.

See section 3.5.C in the Faculty of Science section of the online Calendar
(<http://www.ucalgary.ca/pubs/calendar/current/sc-3-5.html>)

3. **Grading:** The University policy on grading and related matters is described sections F.1 and F.2 of the online University Calendar. In determining the overall grade in the course the following weights will be used:

Midterm Lecture Exam	30 %	March 1, 2017	ENE 241 and 243
Laboratory Reports	30 %		
Final Exam	40 %		

(There will be a final exam scheduled by the Registrar's office.)

Each piece of work (laboratory report, midterm test or final examination) submitted by the student will be assigned a percentage score. The student's average percentage score for the various components listed above will be combined with the indicated weights to produce an overall percentage for the course, which will be used to determine the course letter grade. Students must achieve a passing grade (D minimum) on the portion of the course comprised of the midterm and final exam in order to qualify for a passing grade overall.

4. **Missed Components of Term Work:** The regulations of the Faculty of Science pertaining to this matter are found in the Faculty of Science area of the Calendar in Section 3.6. It is the student's responsibility to familiarize himself/herself with these regulations. See also Section E.3 of the University Calendar

5. **Scheduled out-of-class activities:** Dates and times of approved class activities held outside of class hours.

MIDTERM EXAM (Lectures 1-18 March 1, 2017 8:00-9:30pm ENE 241 and 243)

PLEASE NOTE THAT THERE WILL NOT BE A DEFERRED MID-TERM EXAMINATION.

REGULARLY SCHEDULED CLASSES HAVE PRECEDENCE OVER ANY OUT-OF-CLASS-TIME-ACTIVITY. If you have a clash with this out-of-class-time-activity, please inform your instructor as soon as possible so that alternative arrangements may be made for you.

6. **Course Materials: TEXT:** Recommended: GUYTON & Hall, Textbook of Medical Physiology, W.B. Saunders Co., Toronto. 13th Ed. 2015, and Animal Physiology. Hill, Wyse, Anderson. Sinauer Associates, Inc., Mass., 4th edition.

7. **Examination Policy:** Students should also read the Calendar, [Section G](#), on Examinations.
8. **Writing across the curriculum statement:** In this course, the quality of the student's writing in laboratory reports will be a factor in the evaluation of those reports. See also [Section E.2](#) of the University Calendar.
9. **Human studies statement:** indicating whether students in the course may be expected to participate as subjects or researchers. See also [Section E.5](#) of the University Calendar.

STUDIES IN THE BIOLOGICAL SCIENCES INVOLVE THE USE OF LIVING AND DEAD ORGANISMS. Students are expected to be familiar with <http://www.ucalgary.ca/pubs/calendar/current/sc-5-1.html> of the on-line calendar.

Students will be expected to consult the library extensively when preparing laboratory reports or to supplement aspects of the lectures not adequately covered in the text. The library has been asked to place the books on the attached list of reserve books in the undergraduate reading room reserve collection. This is done purely for the convenience of the student and is not in any way meant to restrict the student to gathering necessary information from these books rather than any other appropriate ones.

Students will be expected to supply dissecting sets and graph paper. Laboratory coats or aprons are recommended. Laboratory reports are due 1 week following completion of the laboratory. If presented late they will be graded only if accompanied by a medical excuse. A Laboratory Examination will be included in the final examination scheduled by the registrar during the April examination period.
